

# STAY SAFE

## Shipyards Brew Pub COVID Policies and Procedures.

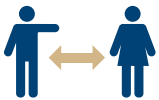

Thank you for visiting the Shipyards Brew Pub. Our message to employees, guests and the communities we serve, is that we need to do this right. Many new policies both behind the scenes and in our public spaces have been implemented. We all share in the responsibility to minimize risk through effective physical distancing, attention to hand hygiene and wearing facial coverings.

We will accept a limited amount of reservations and also allow walk in parties. Please arrive as close to your reservation as possible. Bar seating is very limited on a first come first serve basis. We cannot accept any party over 8 people. Weather permitting the patio will be open.

If you are exhibiting any symptoms of COVID (fever, coughing, sneezing, loss of sense of taste or smell) or have been exposed to COVID, please do not enter our premises and consider quarantining for at least 14 days.

Please maintain proper social distancing of six feet wherever possible. We encourage frequent handwashing as part of good hygiene.

Please wear a face mask while entering, exiting and moving throughout the pub. Masks are not necessary while seated, but we encourage the wearing of facemasks whenever practical.

We offer take out service and a new online ordering system will be up and running soon.

All Shipyards employees are required to wear a face mask, observe social distancing and wash hands frequently.

We have implemented significant changes in our food purchasing, delivery and handling practices to reduce unnecessary contact and continued safe food handling practices. Our menus may be smaller, but by doing so, we maintain safe work practices throughout our facility.
